OBJECTIVE

Aspiring software developer seeking an OJT opportunity to apply programming knowledge and academic training in real-world projects. Motivated to gain hands-on experience, contribute to the development of software systems, and continuously improve technical and collaborative skills in a professional environment.

INTERNSHIP EXPERIENCE:

QUALITY ASSURANCE INTERN APRIL - JULY 2026

KooApps Philippines Corporation

- Performed manual testing on applications following established test cases.
- Logged software defects and tracked issue resolution through QA workflows.
- Collaborated with developers and QA team to enhance overall software quality.

ACADEMIC PROJECTS:

TicketingBros - Movie ticket booking system built with ASP.NET Web Forms, C#, and MS Access; handles seat selection, checkout, payment capture, and booking confirmation with duplicate-booking prevention.

Arithmetic Arena - A mathematics quiz game on Android built on Kotlin; it is designed with RPG elements and progressive gameplay.

PlanterAid - Developed a cloud-based IoT monitoring system for pineapple farms using C#, HTML, JS, CSS, and Blazor .NET Core 8.0, with real-time sensor tracking.

CERTIFICATIONS:

- CompTIA Tech+ Certification (2025)
- CCNA: Introduction to Networks (2024)
- CCNA: Switching, Routing, and Wireless Essentials (2024)
- Artisan on Port 8000: Laravel Unlocked (2025)
- Effective Prompting (2025)
- Interfacing with Arduino (2026)
